

Pre-Collegiate Pathways

International Explorations Program

Summer Online 2021

Building on over 25 years of designing and leading premier academic programs at Stanford University, Pre-Collegiate Pathways is pleased to collaborate with Opus Academy to provide an amazing academic opportunity for passionate students to reach their potential.

Academic Program:

- **Exploratory workshops**

Live seminar-style discussion-based classes taught by expert instructors on advanced topics. A different topic each day. Sample topics: Design Thinking, Global Mindset, Leadership, Computational Thinking, Cultural Psychology, Decision Science, Business Topics, Legal Studies, International Relations, Data Science, Computer Security, Bioscience, Visual Storytelling, Game Design.

- **Team Projects**

Choice of Topics: Global Solutions: Climate Action, Business & Entrepreneurship, Technology in the World Today or Bio-Medical Science

- **Events and activities**

Guest lectures and panel discussions

Enhanced Learning Outcomes:

- Develop skills in leadership, communication, critical thinking, problem-solving, creativity and innovation.
- Experience university-level learning.
- Increase global competency.
- Receive expert evaluation and feedback.
